CD ROMS

Some researchers may find it more convenient to view out of print registers on their home computers instead of a microfiche viewer and so the Society has produced some of the registers on CD ROM as well as on microfiche. They can be viewed on an IBM compatible personal computer and some Apple Mac machines. They are in portable document format (PDF) which requires Adobe Acrobat Reader (**PC version also supplied on the disc**) to view on screen or send to a printer. They are all priced at £6 to members and £8 to non-members which includes second class / surface mail postage. They are listed in the left hand column.
