

Butterleigh Overseers accounts – Part 2

Notes:

A solidus (/) shows that two lines have been run together.

The fourth column for fractional pence – $\frac{1}{2}$ is usually clear. $\frac{3}{4}$ however is often represented as $\frac{1}{3}$ or $\frac{3}{4}$ similarly,

Earlier accounts – Easter to Easter; later Lady day to Lady day

The above is all in pencil. The calculations are sufficiently different to the values in the rest of the accounts that I believe that they refer to payments due from one of the farmers. The writing corresponds to that of John Berrey who was overseer in 1803; He was also overseer in 1802 when disbursements were £19/17/5d.
